

ABOUT IN-TECH SKILL DEVELOPMENT

In-Tech Skill Development is a full service hockey school located at Paramount Ice, in North York.

The In-Tech Skill Development vision is to teach and improve the fundamental skills of our students, while placing a strong emphasis on enjoyment of our game.

Paramount Ice Complex is Excited to Announce our In-Tech Skill Development Summer Camp Programs for 2017!

Improve your game this Summer at Paramount Ice. Our Summer Camp programs offer a diverse range of on and off ice training with skilled coaches.

On-ice development includes power skating, puck handling, passing and shooting, as well as offensive and defensive tactics. Off-ice activities include indoor soccer and/or hockey specific dryland training.

As a new feature this year campers will play in our Stanley Cup Game on Fridays. The lights go down, the spotlight goes up, and music fills the air. Complete with our smoke machines and player introductions, this feature will capture the hearts of parents, family and friends who are watching their stars take their shot at playing on the big stage.

Take a look at our details schedule and sign up today!
